

Quality Building Solutions

Since 1983

Universal Fabric Structures has been producing top-of-the-line building systems and solutions for close to 30 years.

We are an ISO 9001:2008 certified company and provide design, construction, and project management services. Available in steel or aluminum frames (from 60'-320'+ wide by any length), our structures are engineered to withstand the harshest climate conditions and our track record over the past three decades speaks for itself.

Some of our satisfied clients in the Sports & Recreation industry include the Philadelphia Eagles, University of Maryland, Pinelands Sports Center, Ivory Ridge Swim & Tennis Club, Aronimink Golf Club, The Atlantic Club, and IMG Academies/Bollettieri Tennis Center.

We've got you covered with industry leading quality, professional service, and prompt availability.

We've Got You Covered

FROM INITIAL DESIGN TO AFTER-SALE SUPPORT (AND EVERYTHING IN BETWEEN)

Available in custom and pre-engineered designs, SPORSTALL® structures are low maintenance and can be built directly on site with limited foundations, providing a cost-effective alternative to traditional brick and mortar, steel shell, or air bubble enclosures. SPORSTALL® features a clean, bright, open, and airy design that is aesthetically pleasing, providing the perfect indoor sports environment for multiple sport activities.

CUSTOMIZED SOLUTIONS

Specifications

- Steel or Aluminum frame
- Width - 60'-320'+
- Length - Indefinite (15' to 20' modules)
- Height - Approximately 45% of width
- 22oz-24oz PVC-coated polyester scrim flame retardant fabric
- Designed to meet or exceed local building codes for all seismic and wind load requirements

Characteristics

- Modular, expandable
- 100% relocatable
- Unobstructed clearspan space
- Limited maintenance required
- Flat gable ends or rounded bell ends are available
- Snow shedding capabilities
- Can be climate controlled in virtually any environment

Options

- Other fabric styles and weights are available
- Doors & Windows
- Insulation & Acoustic Liners
- Electrical & Lights
- HVAC
- Solar Panels

The shelter provides a wrinkle-free appearance and is available in a variety of colors and design elements. Optional translucent roof panels are also available to create a bright and airy indoor environment. Our buildings are designed to be quickly installed for permanent or temporary projects and can be relocated or expanded based on individual customer requirements.

SPORTS & REC SOLUTIONS

- MULTI-SPORT

- SOCCER
- FOOTBALL
- LACROSSE / FIELD HOCKEY
- BASEBALL / SOFTBALL
- BASKETBALL
- SWIMMING / DIVING
- INDOOR TRACK
- ICE HOCKEY / INLINE SKATING
- VOLLEYBALL

STRUCTURES THAT ARE BUILT TO LAST

UFS ADVANTAGES VS. ALTERNATE CONSTRUCTION

Advantages vs. Metal Buildings

- Much lower foundation costs and requirements.
- Option for translucent panels which allows for natural light that can potentially save up to 65% on lighting costs.

Advantages vs. Air-Supported Buildings (Bubbles)

- Virtually no operating costs compared to an average of \$5,000 - \$10,000 per month for a "bubble" building.
- Unlike a "bubble", UFS buildings can be attached to conventional construction to create any desired look.

Other Advantages

- Pricing includes delivery, installation, engineering and support.
- Superior design to shed snow and engineered to meet and exceed local wind load requirements.

flexible solutions to meet your needs

OUR CLIENTS

"The Universal Fabric Structure team combined resources from sales, engineering and project management effectively and professionally to meet our exact needs."
Pinelands Sports Center
Southampton, NJ

"We considered another bubble, a metal building and other fabric structure suppliers. Our engineer and architect strongly recommended that we choose Universal Fabric Structures to supply the new indoor practice field. The quality of the environment, lighting system and overall aesthetics confirmed we made the right decision. The Sporthall is now the focal point of our new practice facility. The players and coaches love it."
Philadelphia Eagles Football Club
Philadelphia, PA

"It is a perfect home for indoor tennis play. The structure itself is durable; has excellent clearance and ideal illumination. Consensus is it is Utah's showcase tennis club."
Ivory Ridge Swim & Tennis Club
Lehi, UT

"One of the big advantages is that I never have to worry about the UFS buildings during inclement weather like I do with the air-supported structures we have. The UFS structures are extremely durable and I will definitely recommend using the Universal Fabric Structures team again."
The Atlantic Club
Manasquan, NJ

"We love our pool! It's the best in the state. The entire crew was a pleasure to work with. I would recommend them to anyone."
Courthouse, Inc. Fitness
Jackson, MS
