Winning Touch Tennis

Indoor Tennis Facility
Allentown, PA

"We are pleased with the responsiveness and level of service Universal Fabric Structures has demonstrated to meet the needs of our growing business and we will include them on the bid list for future projects"

- Bill Kurtain, Co-owner
Winning Touch Tennis

Background

After the success of their first Winning Touch Tennis® installation in Princeton, co-owners Bill Kurtain and Steve Dansky included Universal Fabric Structures on the bid list to provide their new facility in Allentown.

Not only were they thrilled with the indoor playing environment the facility provides, but also how it proved to offer functional stability above and beyond normal use as evidenced when their Princeton facility held up against a tornado that touched down nearby.

While several trees were yanked up and dumped on the ground next to Winning Touch Tennis®, the structure stood firm.

The Middle States Eastern PA District of the United States Tennis Association (USTA) selected Winning Touch Tennis of Lehigh Valley as its Tennis Club of the Year.

Scope of Work

A 118' wide by 210' long TFS structure.

Solution

Modeled after their successful indoor tennis complex in Princeton, Winning Touch Tennis® in Allentown offers Lehigh Valley tennis enthusiasts of all levels state-of-the-art play on their four indoor and two outdoor courts. The Allentown facility is one of several planned Winning Touch Tennis™ indoor tennis facilities in the offing for co-owners Kurtain and Dansky.

The Allentown Winning Touch Tennis™ structure is a high-tech, player friendly tennis court facility with state-of-the-art indoor lighting and acrylic layered court surface, featuring a cheerful, bright environment. The translucent fabric construction provides the added bonus of maximizing winter sunshine to create solar heat absorption while blocking significant amounts of damaging UV rays.

"Reasons cited for the USTA award included Winning Touch's modern, state-of-the-art facility, much in part to Universal Fabric Structures unique building, and for eliminating the practice of charging membership fees making tennis more accessible to more people", said Bill Kurtain. Steve Dansky added, "The Board concluded that these qualities promote the game of tennis, along with the various USTA programs that Winning Touch Tennis supports.

About Winning Touch Tennis

Winning Touch Tennis® in Allentown is poised to meet the needs of the growing population in the Lehigh Valley. The facility offers court time for experienced players as well as lessons for beginners and those looking to improve their game. A variety of memberships levels are available and include: unlimited play, contract court time, family and junior memberships, as well as leagues, clinics, and group and private instruction.
