## Universal Fabric Structures Announces Distribution Network

Universal Fabric Structures, Inc. (Quakertown, PA) has recently partnered with six companies throughout the United States and Canada to distribute the entire UFS product line to its growing client base. Each new distributor brings extensive fabric structure construction experience and a local presence in their defined territory and has general contractor licenses in the states they are assigned. All of them are knowledgeable about the fabric structure industry and have been extensively trained on installing the entire UFS line of products.

Universal Fabric Structures will continue to sell directly to the rest of North America out of their Quakertown, PA offices. Visit [www.ufsinc.com](http://www.ufsinc.com) for more information.
